[Draft VBI70 OU2 AOC for removal Denver markup 5 20 15.doc](#)  
[VBI70 SOW \(5 20 15\) changes accepted.docx](#)

Hello, team! Attached, please find the first submittal of documents (AOC, SOW, and MMP) for the Removal Order associated with the barrier system portion of the open channel drainage proposed for the Coliseum parking lot. THE AOC and SOW are included here; I will send the MMP under a separate email. Please note, that in the AOC, while most edits and comments have been incorporated, the redlined text and remaining comments have yet to be resolved.

The second set of documents (WP, SAP, and HASP) will be submitted on June 1 for review. The meeting to discuss and finalize all six documents is set for Wednesday, June 17, from 1 to 3 pm at EPA in the Columbine Conference room. Since we only have two hours to get through six documents, I am hoping that in the weeks leading up to June 17, that you will use the attached contact list to directly talk to persons involved in the weeks leading up to June 17. Thanks in advance for your efforts to review these and future documents on such a short timeline.
